

MKHD T608-ED TOUCH BK/XS

Extraction and filtering T hood

Highlighted features

Energy class A

LED lights

3 speeds + intensive

Slide touch controls

Width 60 cm*

Features

- Extraction and filtering T hood
- 60 cm wide (MKHD T608-ED Touch BK/XS)
- Slide touch controls

Technical specifications

- Energy class A
- Extraction capacity 800 (m3/h)
- 3 speeds plus intensive
- 66 dbA noise level at maximum speed
- 2 aluminium filters*

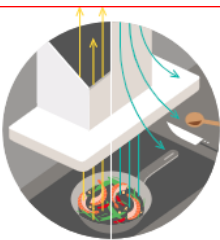

MKHD T608-ED Touch BK/XS

Stainless steel and black glass design

Optional accessories

- Carbon filters (KIT/CHFIL CA2 € 38.00)

Extracting and filtering

All Master Kitchen hoods can operate in extraction or filtering mode. In the filtering version the combined action of the two filters makes it possible to filter air while cooking and convey clean air back into the room. In the extracting version, the metal filter removes smoke and odours from the air and discharges it outside through a duct.

Noiseless

The noise from the hood is limited by technological solutions that optimise the air flows, such as the use of sound-absorbing materials and sound-proofing systems.

Master Kitchen
